Experience

Team Green Force Inc. | Full Stack Software Developer

May 2024 - Present

Flutter, ASP.Net MVC, ASP.NET console application, SQL, React JS

Mumbai

- Engineered robust, scalable web & mobile systems used by **40+ solar companies**, driving operational efficiency, survey quality control, and real-time communication.
- Created a **DIY Survey Platform** for clients preferring in-house teams, including dynamic form builders, country-wise authentication (email/OTP), and role-based access, boosting **adoption by 70%** within the first quarter.
- Developed a lightning-fast **PDF automation module** using iTextSharp, reducing manual effort from **60 minutes to 4 minutes per report**.
- Integrated **Zoho Books** with **Stripe** to **automate** the entire billing lifecycle including profile, payment and invoice, eliminating **100% of manual processing errors**.
- Designed a PE Stamping Validator to compare project details between stamped plans and PE letters, reduced QA time from **90 to 15 minutes** and improved delivery.
- Built a sleek **Podio** frontend wrapper using **React** to simplify workflows across platforms like **Core365 & SolarApp+**, minimizing training time for partner teams.
- Launched **geo-intelligent surveyor notification system** using **Firebase**, auto-alerting surveyors within a **100-miles radius** of new jobs based on radius logic.
- Automated subscription lifecycle (renewals, expirations, sub-user limits) via backend scheduling bots, improving customer retention and reducing admin escalations by **60%**.

Alphonsol Pvt. Ltd. | Flutter Developer

May 2023 - May 2024

Flutter, SQL, Jira

Mumbai

- Led the development of an intuitive application connecting surveyors with survey requests, empowering autonomous workload management from inception to completion, including architecting the project.
- Integrated real-time location tracking using **Maps SDK, Directions API, Geolocation, Geocoding, and Places API**, enhancing transparency and operational efficiency for solar companies.
- Enabled seamless offline survey functionality using **Sqflite and Floor**, ensuring reliable data collection in low-connectivity.
- Implemented robust local storage and authentication features using Shared Preferences and Local Auth, supporting **biometrics (fingerprint, Face ID, Touch ID) and multi-method PIN/passcode security**.
- Integrated Stripe (web + Android) and Apple In-App Purchase** for automated payments, streamlining transaction workflows across platforms.
- Managed app lifecycle, including **App Store** and **Play Store** publishing, release maintenance, and version updates, ensuring smooth user experience and compliance.

Projects

BioTradX | Flutter, GetX, Firebase, Google Maps, WebSocket, Cashfree

- Developed a cross-platform B2B app enabling admin-controlled tier-based (L1-L3) buying/selling with dynamic pricing.
- Implemented nearby user discovery using **Google Maps API** to connect buyers and sellers via real-time geolocation.
- Integrated core infrastructure using **Google Sign-In with Firebase Auth, Firebase Cloud Messaging** for real-time system alerts, and **Cashfree** for secure wallet-based payments.
- Built in-app chat using **WebSocket** to enable real-time price negotiation and order discussions.
- Designed order management workflows with transparent buyer-seller transaction history, ensuring clarity in every deal.

Aphrodite | Flutter, FirebaseFirestore, SQLite

- Developed **Aphrodite**, a period SOS app enabling users to request and provide sanitary products in emergencies, facilitating real-time connections between seekers and helpers.
- Implemented **Firebase** for secure authentication, cloud data storage, and **SQLite** for local data persistence.

Technical Skills

Languages: Dart, C#, SQL, HTML/CSS, JavaScript

Frameworks/Technologies: Flutter, React.js, ASP.NET MVC, ASP.NET Console App, Web API

Tools & Platforms: Git, GitHub, Android Studio, VS Code, Firebase, Stripe, Cashfree, Jira

Education

University of Mumbai

2020 – 2023

B.E. in Computer Engineering — CGPA: 8.87
